

LET'S TALK RESEARCH

HIPAA RESEARCH ESSENTIALS

October 9; 12pm - 1pm

Join us for this virtual HIPAA focused session to understand what data is covered by HIPAA and how it can be used in research, learn about the differences between HIPAA authorization and research informed consent, and evaluate special considerations related to HIPAA regulated data and the IRB.

Guest speaker Kate Cohen will conduct the session. Kate is the Chief Compliance Officer at Southern Illinois University School of Medicine. Kate leads the compliance program for the SIU School of Medicine, the affiliated faculty practice plan, and the SIU federally qualified health center.
