

Prenatal Access to TouchWorks:

- 1.) The first time (and only the first time) you access prenatal records you will be asked for a username and password.
- 2.) Be sure you are in a patient who has prenatal records. In TouchWorks Live, patient 'zztest, ae' has prenatal records. You can use this patient to set up your Prenatal access account if needed.
- 3.) You must be in the 'SIU OB Nurse View' **anytime** you want to view prenatal records.

- 4.) Select the 'Prenatal' tab at the top right of the screen.

- 5.) You will then be asked to enter a username and password:
Your username is your complete SIU e-mail address (i.e. twaters@siumed.edu)
The default password is 'Password1'.
You will then be directed to enter a new password. There are no requirements for the new password.
- 6.) Once you have entered the new password, you will be taken to the prenatal screen. Each subsequent time you access prenatal records you will not be asked for the username and password.
However, you must always be in the 'SIU OB Nurse View' to view prenatal records.
- 7.) For questions, contact Theresa Waters (545-6963)
